Understanding My Ratesheet

Experience. When you sign up for nature-based consulting services with Lead with Nature, you're guaranteed personalized, quality service. This is not a consulting firm with many staffers. It's just me - working with you to get the results you're seeking.

Fee Scale. We strive to work with a diverse array of clients, from visionary, nonprofit leaders to experienced leadership teams of successful businesses. In order to do so, we charge different hourly & daily rates that are appropriately priced for the scale of the client we're serving as well as the sphere of influence & impact of our work. Additionally, we select and donate consulting services to a nonprofit that brings nature to those who typically don't have access.
